

**„Lingshui Military Airfield“ – Hainan Island, South China Sea**

This one-meter resolution, color satellite image was collected at 10:12 a.m. local time on April 4, 2001 by Space Imaging's IKONOS satellite. The US navy aircraft is clearly visible and parked on the taxiway adjacent to the north end of the runway.

This type of imagery could be used during reconnaissance, search and rescue operations for:

- mapping locations for infrastructure;
- monitoring utility facilities;
- preparing implementation;
- creating three dimensional models to evaluate areas for rescue operations.
